

News & Announcement - Upcoming Change to the ClerkAuction Website

We are excited to announce an upcoming change to the ClerkAuction website!

Currently, winning bidders submit their name and address information for the Certificate of Title (foreclosure sales) or Tax Deed (tax deed sales) in one field. We are transitioning the address from one field to multiple fields. This change will improve the accuracy of address information entered by winning bidders, and allow the county to produce more detailed reports.

When will this change occur?

October 14, 2019

How this will impact bidders?

We will pre-populate these fields from the bidders registered user address (as we do with the existing fields), and bidders can edit the address as needed.

The new fields are as follows:

- Address type (Country)
- Address c/o (care of)
- Address Line 1
- Address Line 2
- City
- State
- Zip Code
- Telephone Number
- Additional Contact info

If you have any questions, please use the Contact Us link on the auction site to reach our customer support team.

Thank you,

Auction Administrator
